Fashion is not something that exists in dresses only. Fashion is in the sky, in the street, fashion has to do with ideas, the way we live, what is happening.

What you wear is how you present yourself to the world, especially today, when human contacts are so quick. Fashion is a silent language.

*It's just to say to change the world,
one begins at a time.*

6 Trends in fashion, design and pop culture are taking on more global influence, and of course, one thing that's always in style is color.

A woman is modeling a vibrant red, long-sleeved, floor-length dress with a flared skirt. The dress features intricate black embroidery, including a large central motif on the bodice and several smaller motifs on the skirt. The neckline is adorned with a delicate white beaded chain. The sleeves have a subtle patterned detail at the cuffs. She is wearing black open-toe heels and large, ornate silver earrings. The background is a dark grey wall with white architectural columns and floral decorations. A small table with a bouquet of flowers is visible to the right.
